VETO #1

Mr. President & Members of the City Council:

In regard to your vote requesting the Assessing Dept. to submit to the City Council a monthly report of all abatements granted and increases in valuation that have been made by the Board during each month.

At this time I want to thank Councillor Landry for having courage enough to bring the question up on the floor.

I have been questioning the Assessor's Department since 1932. It used to be stated that the records couldn't be let out or seen. After I became a member of the City Council, I was able to obtain plenty of reports from the Assessors and it was astonishing how the favored few used to get abatements. If you don't believe me, I still have the records. Let me know and I shall bring them into the office and you can look at them at any time. Personally, I believe it is a foolish request seeing that the abatements are going to be printed in the City Report of 1957 and when the 1958 report comes I hope they will also be printed.

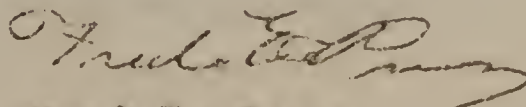

I believe that if you are interested in seeing these abatements; you should take the time to go into the Assessors office. The book is open to you and anyone else to see the mess that the City Council caused in the Assessors' Department. I don't think they are going to have time to take care of this vote.

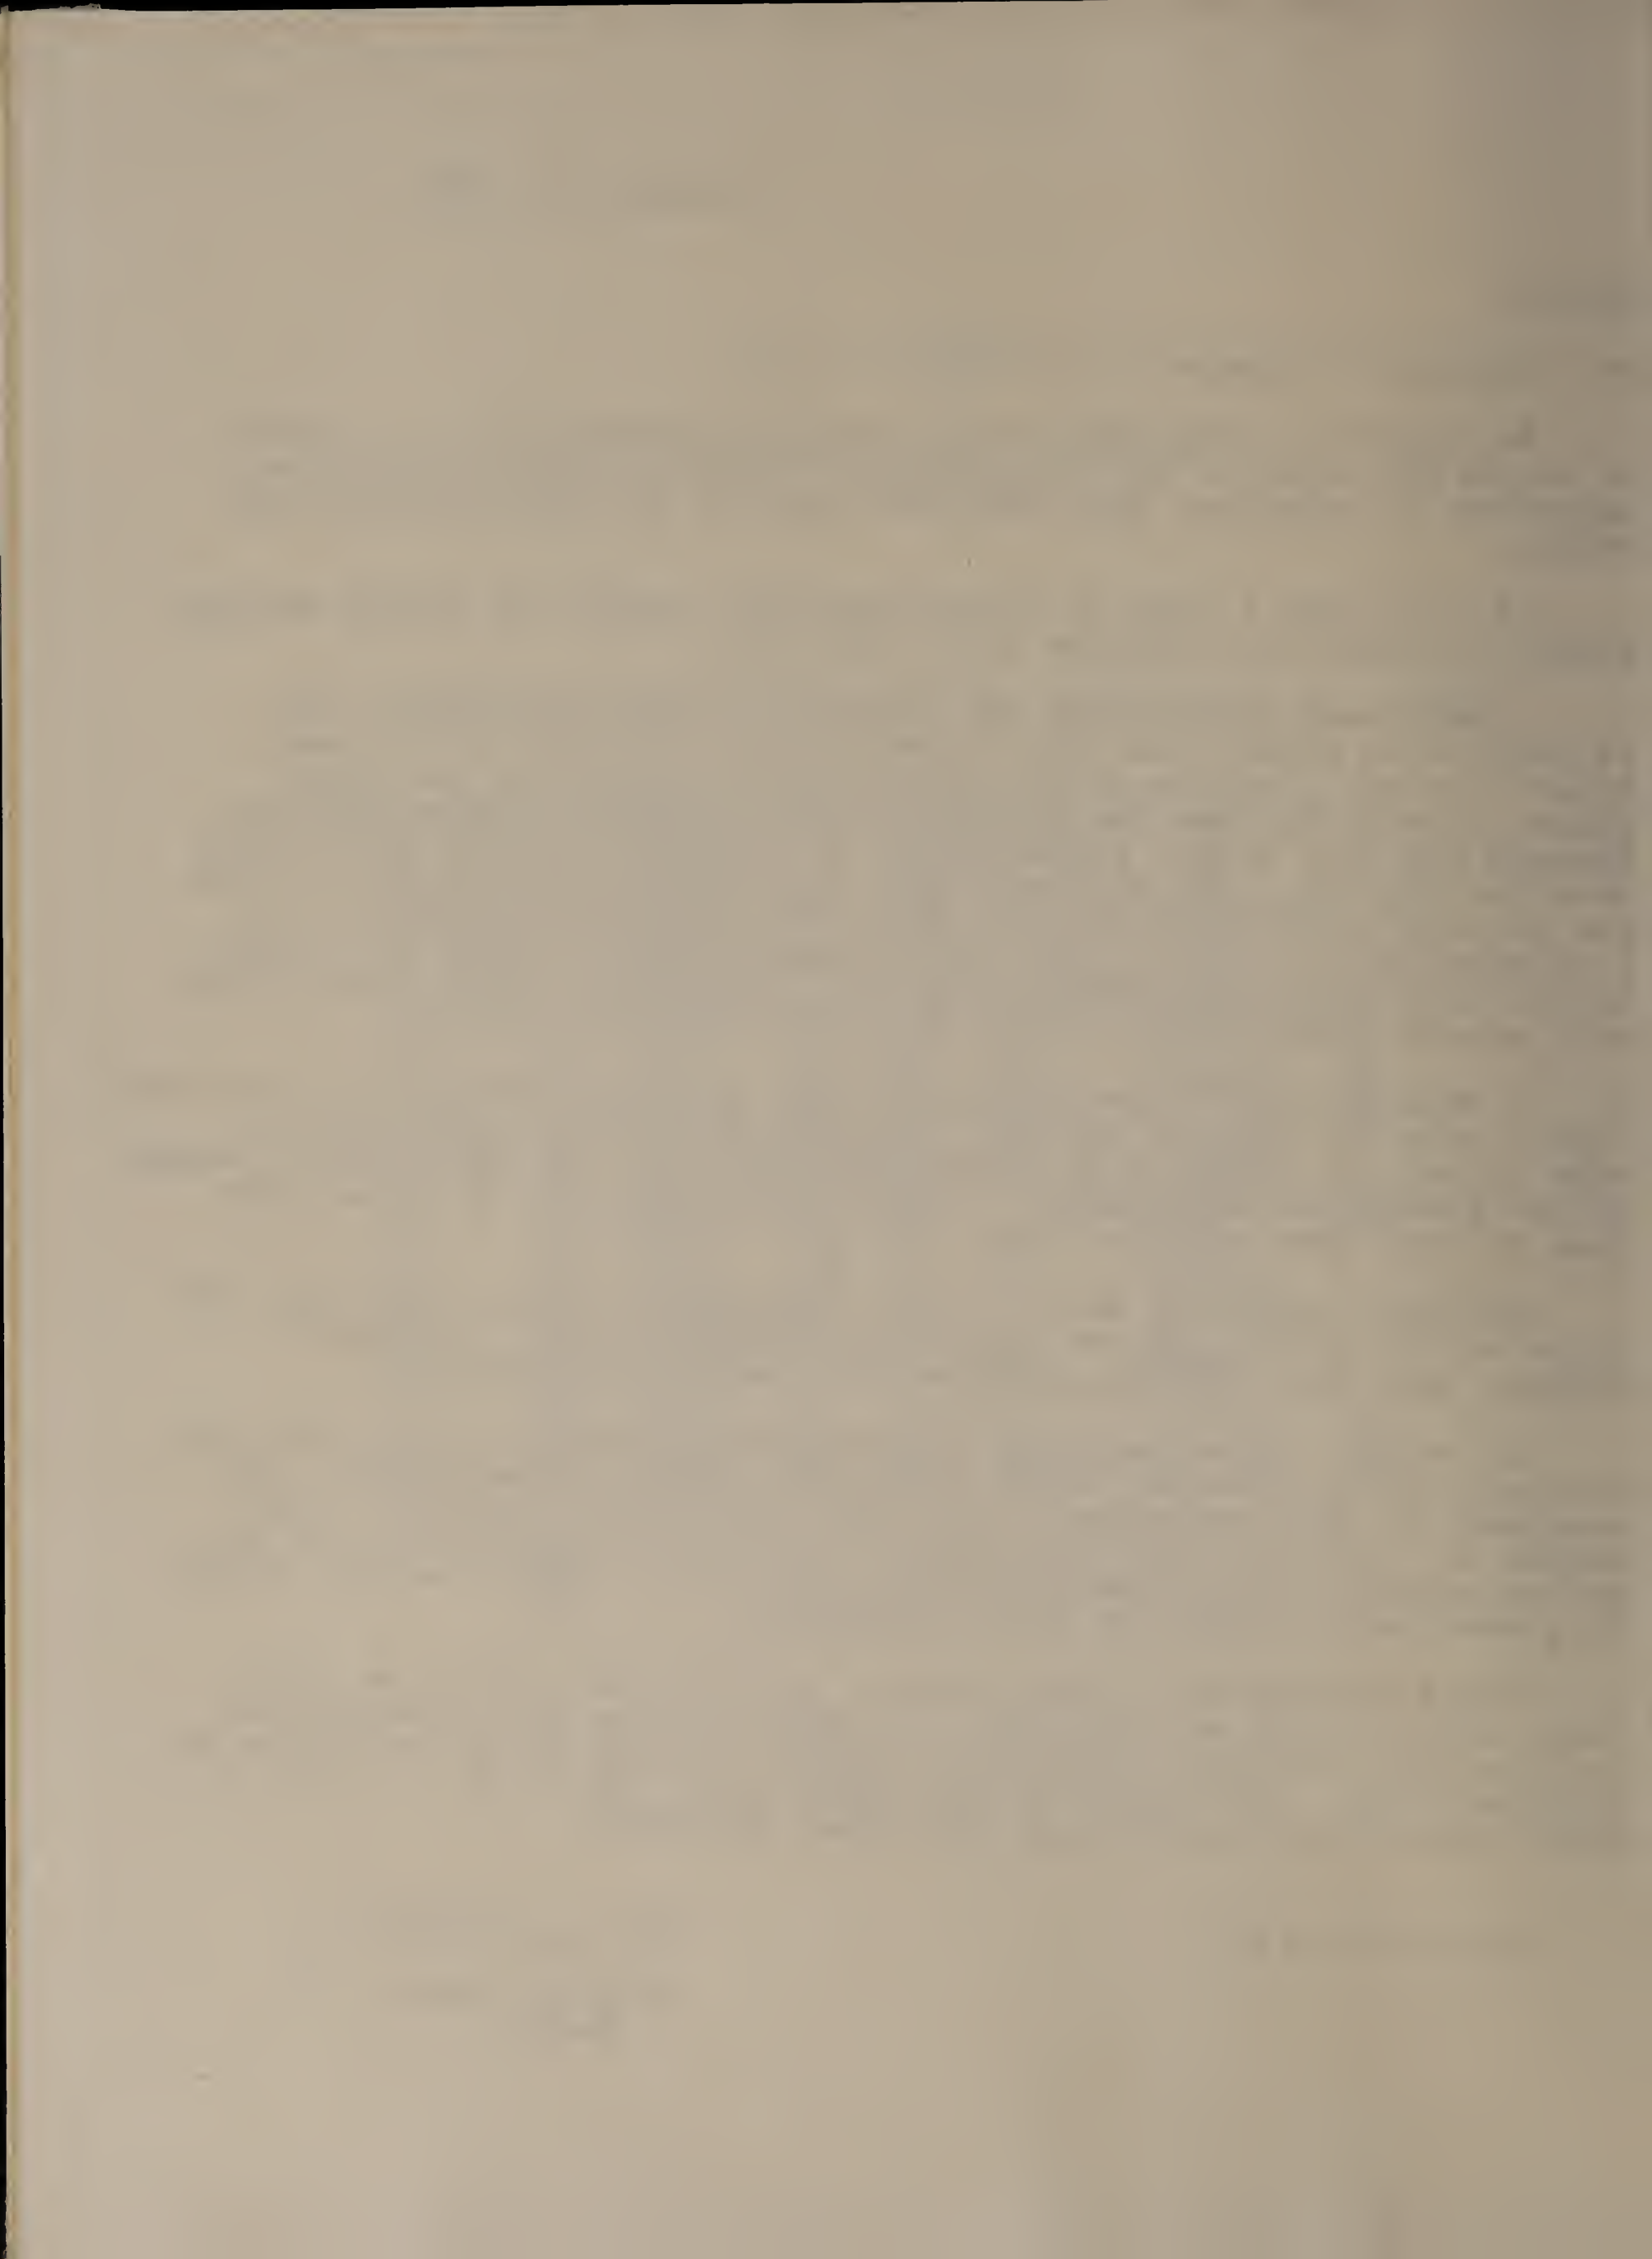

One more reason is that if they should make such a report at the first of the month, some of the Councillors may have "red faces" because they have already adjusted last years assessments.

In regard to the increase in valuation, somebody must be getting nervous. Is it possible their consciences bothers them because they received too much reduction in the past few years. Again I repeat, anyone of you Councillors and anyone else who is interested, can go to the Assessor's Department and copy their cards when they are ready. They are always ready for your inspection.

The Assessors are trying to do a good job and unless we leave them alone, we may not have any. We have to have more co-operation in this City and less criticism in order to clean up the mess that the City got into. You can do as you please with this Veto. I believe I have done my duty in advising you about the above.

This is Veto #1.
